

## **Naya Nazimabad denies all Allegations**

**Karachi, February 14, 2020:** This has reference to several letters, purportedly, issued by DC West to different government departments, agencies and banks making rounds on social media and select channels. All allegations averred in these letters are vehemently denied by Naya Nazimabad.

Naya Nazimabad, a housing project of Javedan Corporation Limited (JCL), is a fast evolving and cohesive community within Karachi for the progressive middle class. It is the only gated, master-planned project, of this scale, with provision for world class amenities. Currently, 6,000 units are owned by members of general public.

Ownership title of Naya Nazimabad land is absolute, lawful, clean and clear as concluded in investigations conducted by courts and several government agencies including Board of Revenue, NAB, and FIA from time to time. It is important to note that the land presently owned by the company has been in its possession since its nationalization through Economic Reforms Order of 1972.

All activities undertaken by Javedan Corporation Limited (JCL) including hill cutting, land levelling, infrastructure development, construction, sale and transfer bear perfect requisite approvals by the Board of Revenue (BOR), Lyari Development Authority (LDA) and Sindh Building Control Authority (SBCA).

Gath/Wadh (survey) form 35, which merely states land measurement and has no bearing on title, was created through proper procedure. Its cancellation was illegal and hence it was subsequently restored. Its genuineness is evident from several reports and documents of BOR.

It is noted with disappointment that DC West, despite having access to all records and information, has chosen to misrepresent facts and commit contempt against clear instructions as per the restraining orders of the Honorable Sindh High Court dated February 11, 2020.
